

# Tiny Buttons

Here we have a range of some of the smallest doll buttons you will find anywhere.

Please note that - 10, 50 and 100 prices are per a colour. For a mixture of colours pick the assorted bags.

These tiny unplated brass buttons have been made to our own design, with a tiny dot pattern border to match our tiny round buckles. With two holes even the tiniest 2mm can be sewn on with one strand of fine sewing thread using the finest beading needle available (recommend size 13).

These are less than half a millimetre thick, which is considerably thinner than other dollshouse buttons sold elsewhere.
